Mauser: bullet lodging. (Pte B.)
Note.

Plate VIII, which showed the upper portion of the femur in this case has unfortunately not come to hand in time for insertion. The sketch, however, indicates the extensive nature of the fracture. The portion below the horizontal line is that shown in Plate VII. The overlapping of the fragments is seen to be considerable.

Note. Lower edge exposed fracture of femur (40 x 8)

Recent gutter injury (40 x 8)
