The Catalogue of the Papers of Professor Sir Patrick Geddes from the Outlook Tower, Edinburgh presented here, is the result of careful and patient research over many years at the Patrick Geddes Centre for Planning Studies of the University of Edinburgh. The Centre was founded by the late Professor Emeritus Percy Johnson-Marshall in 1985 and the University appointed a Steering Committee chaired by the late Lord Cameron.

The research was possible, thanks to the action of initial grant from the Scottish Postal Board which supported the Centre for the first four years. Afterwards, a variety of grants allowed the work to continue, among them the Russell Trust, the Radcliffe Trust, The Sir Herbert Manzoni Scholarship Trust, The Manpower Services Commission, and the Sir Patrick Geddes Memorial Trust and other generous donors to all of whom the Centre is very grateful.

The expert advice of Dr John Hall, Dr John Howard and Dr Murray Simpson from the University Library Special Collections has been greatly appreciated. There were times of uncertainty during the closure of the parent Department of Urban Design and Regional Planning aggravated by the illness and death of the founder and first Director of the Centre Professor Emeritus Percy Johnson-Marshall. The Centre continued to work, despite difficult circumstances, thanks to the support of the Provost of the Faculty Group of Law and Social Sciences Professor D. Neil MacCormick and Miss Jan Hulme from the Faculty Office.

A grant from the recently created University Collections Fund awarded to the Centre has allowed the results of the research to be published. Thanks are therefore due to the Principal Professor Sir Stewart Sutherland, Vice-principal Dr G. R. Field and Vice-Principal Professor R. N. Ibbett for their efforts to create the Collections Fund.

A significant contribution early in the process was made by Dr Jeremy Raemaekers, who started the first list for the Centre's contents. Grateful thanks are also due especially to the Centre's voluntary research scholars who over the years have donated their expertise and time to make this possible.

The help of the late Mrs Katherine Michaelson, with the research on Geddes’s Cities and Town Planning Exhibition and of Miss Caroline Fortescue who with her intimate knowledge of Edinburgh and its history greatly helped with the chapter in Edinburgh, are especially appreciated. Mrs Grace Ellis helped with the organisation of the book collection. Their contributions were made with great generosity and scholarship and without their help it would have been impossible to complete this research. Many thanks also to June Grant the Centre's Secretary who over the years sustained us all in the Gedesian spirit of team work.

Finally, I would like to thank very especially my husband John who supported, sustained and encouraged me over the years and also my three children John, Rebeca and Anthony who were roped in for help when needed.

I Introduction

The Archives of the Patrick Geddes Centre for Planning Studies
University of Edinburgh.
S G Leonard

The Archival Collection of the Patrick Geddes Centre for Planning Studies comprises related material reflecting the evolution of environmental thinking in Britain since the 19th century to the present. These are:

A.- The Papers of Professor Sir Patrick Geddes from the Outlook Tower.
B.- The Papers from the Association for Planning and Regional Reconstruction or APRR.
C.- The Papers from the Department of Urban Design and Regional Planning or UDRP.
D.- The Papers from Professor Ambrowse Rouse Director of the APRR.
E.- A collection of books on Planning and the Environment complementing the papers on the various collections.
F.- The Papers from the the first twelve years of the Patrick Geddes Centre for Planning Studies and other related miscellaneous material.

The oldest and most important collection at the Centre is the material pertaining to the work of Patrick Geddes from the Outlook Tower, Castlehill in Edinburgh. This is the first catalogue of this material which is published in this volume now. It contains only the first part of the entire collection of related papers. Research and archival work on the rest of the collection is still an on-going project and it is hoped that further catalogues will be published at a later date.

Geddes’s work at the Outlook Tower, on the head of the high Street in Edinburgh at the corner of Castlehill and Ramsay Lane is well documented mainly by Philip Mairet1, Paddy Kitchen2, his biographer Philip Boardman3 and more recently by Helen Meller 4. I need only to make a summary from various sources here.

The Outlook Tower was bought by Sir Patrick Geddes on 7 July, 1892 from Robert Henderson, husband of Marie Therese Short, the optician who built the Camera Obscura on the roof of the Outlook Tower for the price of £1,000.00 pounds. Four years later, on the 7 July 1896, the Town and Gown Association Ltd. Edinburgh (created to help Geddes with the financial burden of properties acquired for the regeneration of the Old Town) bought the Outlook Tower for the sum of £11,000 pounds5 to be developed by Patrick Geddes's as a Civic Index- Museum.

Under Geddes, the Tower became a Centre for post-graduate studies, experimental education and civic improvement - the power house for the regeneration of the Old Town of Edinburgh. The material at the Outlook Tower, under Geddes's direction included the historical development of Edinburgh ancient, medieval and modern, actual and projected. It also included, at ever increasing scales, the intricate relationships between Edinburgh, Scotland, Europe and the World. He envisaged the Outlook Tower as an interactive place, never static, never finished; a place that the city of Edinburgh and its citizens would keep alive as Civic Museum very much a part of its many educational resources and public initiatives. This dream achieved only partly in his lifetime, regretably has been lost for successive generations. However, the dream was kept alive by a group of dedicated followers, and it is still to be fully realised some time in the future.

Geddes enrolled and motivated all kinds of ordinary people, men and women of all professions and all ranks and conditions from the highest to the humblest to build up his Civic Museum. This resulted in an eclectic collection of diverse projects and plans which he put together, varied in their merits, each a symbol of renewing co-operation towards civic pride and betterment.

In 1886 Geddes organised the first of his Summer Schools in Granton, Edinburgh, on the topics of Seaside Biology and Garden Biology. The following year these subjects were complemented by Theory of Evolution. The next step was the introduction of Social Sciences based on the social phenomena observable in Edinburgh. From then on, gradually new subjects in Philosophy and Art were introduced at the Summer meetings which became the main activity of the Outlook Tower. The Tower was adapted to the requirements of the Summer Meetings, partly as a small Type-Museum, and partly as a centre of teaching, reference and study. In 1900 Geddes organised a Summer Meeting in Paris, as part of The International Exhibition, and the Meeting was seen as an important European event.

In 1910 Geddes was appointed Director of the Cities and Town Planning Association and presented his Cities and Town Planning Exhibition in London at the Royal Academy that year. The Exhibition was made up from selected exhibits of his collection which he had built up at the Outlook Tower over many years. The impact of the Exhibition in the Architecture and Planning professions was huge. This is the turning point which started a series of other Civic Surveys in Britain and abroad. The Survey of Edinburgh was a particular focus of interest.

The Survey of Edinburgh, built up since around 1895, contained an ever growing material on Edinburgh with a wealth of detail and yet only partially organised and far from complete. The intention was that people themselves would contribute to the contents of the Museum in a lively and interactive place and thus participate in the shaping of their own environment. His Edinburgh Survey was extensive and thorough. It included many of his ideas about Town Planning and the methods of "Diagnostic Survey" by discovering problems and possibilities for the future based on an examination of the past and present.

In spite of the city of Edinburgh having been sorely battered by the past and of having confronted many civil wars and bitter spiritual divisions, Geddes's Survey shows "above the tangles of detail the great pageant of history and the increasing consciousness of the unique beauty in which she lives". 6 Geddes's Survey of Edinburgh illustrated "The processes of city life and growth, and those also of its disease and poverty, its vice and crime, its deterioration and decay"7

---

A great part of what survives of the Edinburgh Survey by Geddes is now at the Patrick Geddes Centre's collection. An important section of the Survey of Edinburgh was in the form of photographs, some taken by Geddes and his helpers mainly Alastair, his son and Mabel Barker his goddaughter. Others were commissioned from a photographer Mr Robert Dykes. Some two hundred and fifty glass negatives survive at the Patrick Geddes Centre. Some negatives are in excellent condition, but some have been damaged by the various moves and by bad storage. This material has now been published separately in Volume II.

The photographs were intended to show, not so much the beauty of the city and its dramatic location, but rather to illustrate his method of "Conservative Surgery" which he used in shaping the Edinburgh Closes of the Lawn Market as we know it today. The photographs show vacant spaces in the Old Town, then abandoned and derelict, and show the possibility of converting them into a network of inner city gardens, cultivated and cared for by the people of the Old Town slums who had no possible access to a garden.

The Outlook Tower embodied, on the one hand the results of ever deepening enquiries into all factors which make up our civic past, and on the other, an attempt to disentangle the complex forces, good and bad, which work towards the discernible alternatives in the near future. The Outlook Tower was an "urban observatory", a beacon of light from Edinburgh to the world.

Central exhibits also were Gibson's model of the city Cross, demolished in 1756 and partially re-erected by Walter Scott and later by Gladstone for public use (not found in the present collection). This Cross complemented by the relief models of Edinburgh with their expression of the material origins of the town. There were two models of Edinburgh. The largest was a plaster model in two parts of the site of Edinburgh including the surrounding hills. One part of this model is in the Patrick Geddes Centre's collection and the other is, at present, in Huntley House. The smaller one, in bronze, covered only the Old Town and the New Town area. The New Town Conservation Committee made a cast of the model and reproductions were possible from this cast.

The Cities & Town Planning Exhibition, including the Survey of Edinburgh was shown to large audiences at the Royal Scottish Academy of Edinburgh, in March-April 1911. Subsequent exhibitions were shown. First in Dublin, at Balls' Bridge with a catalogue entitled UI BREASIL (24 May-7 June 1911) and later in Belfast at the Ulster Halls (7 June -24 July 1911).

The Ghent International Exhibition, organised mainly by Patrick and Alastair Geddes, was described in the Town Planning Review of July 1913. Geddes was awarded the Grand Prix for this exhibition and was later to refer to it as the Grand Prix Exhibition. This went also to Utrecht the same year.

At this stage and at the height of his career and influence Geddes was asked to take the Cities Exhibition to India following an invitation from Lord Pentland then Governor of Madras. On the 23 of October 1914 the Clan Grant, the vessel carrying the Cities Exhibition, was sunk by the Emden, a German destroyer. It is not clear how much of the 1910 Exhibition was actually sent in that fateful shipment, but a great deal of original material was lost.

Following an urgent appeal from Geddes, who was on his way to Madras already, the Exhibition was “duplicated” in Edinburgh by his close collaborators among them:

Unwin, Lanchester and Pepler on the basis of past catalogues. This replacement of the "Cities Exhibition" was then sent to India in December 1914 after only two months of Geddes’s appeal. The new "Cities Exhibition" toured India starting at Madras in 1914 at the Senate Hall of the University where it is said to have had about 3000 exhibits. Other Exhibitions followed, Calcutta 1915, Nagpur 1916. This replacement or second "Cities Exhibition" now back in Edinburgh is the most important part of the Geddes collection of the Patrick Geddes Centre.

Meanwhile, in 1915 Geddes and Anna Morton his wife, took a selection of exhibits from the Cities Exhibition to Paris for the "Exposition de la Cite Reconstituee". Geddes went back to India and by 1923, the "Cities Exhibition" was a permanent feature at the University of Bombay where Geddes held the chair of Sociology and Civics.

In 1927 the Cities Exhibition was boxed in Indian tea chests and shipped by Arthur Geddes to the Scots College in Montpellier, where Patrick Geddes died in 1932. Years later after Patrick’s death, Arthur sent the boxes containing the Cities Exhibition (replacement of the original ) to London in 1946. There is an inventory of this material drawn by Arthur Geddes and deposited in the National Library of Scotland which however is not specific or complete.  

Other lists of material exist. A detailed list was drawn up in 1935 by Mabel Barker of the papers, pamphlets, and articles by Patrick Geddes or relating to him and his work. In her possession. The Forbes Trust kept a series of notebooks with notes about state of exhibits, new additions etc. dated. 1932/3, 1935/6, 1947/8.

On his return to Edinburgh, Arthur Geddes devoted himself to consolidate the Scotland Room at the Outlook Tower, largely untouched during his long absences in India and Montpellier. The Edinburgh and Scotland’s Rooms were re-opened only in 1955 following Arthur’s return from USA in 1953. Much damage to the exhibits seem to happened at this stage, according to a statement of losses and assets drawn up by the Outlook Tower Association.

The Association for Planning and Regional Reconstruction was created in London after the War, first associated with the Architectural Association, and later on independently. This early School of Planning was attended by some distinguished planners, among others, John Turner, George Pepler, Percy Johnson-Marshall, Jim Amos, George Franklin, Kenneth Watts, Frank and Mary Tindall and Richard Bigwood.

Professor Pepler organised, on the basis of past catalogues and with the material recently arrived in London sent by Arthur Geddes from Montpellier, an exhibition with selected illustrations from Geddes’s second exhibition. The catalogue of the Pepler Exhibition was reproduced in the new revised edition of "Cities in Evolution"

of 1949\textsuperscript{15}. This reprint include an introduction by Professor Percy Johnson-Marshall. The illustrations of the 1949 catalogue closely match the material housed at the Patrick Geddes Centre and now published in this catalogue. It is possible that this is when the total exhibition was separated in two parts. One part went to Glasgow whereas the material selected for the Pepler exhibition, was sent back later to Professor Percy Johnson Marshall in order to enhance his project for the revival of the Outlook Tower. The remaining material of the Cities Exhibition is in the Strathclyde University collection.

Recent history of the Outlook Tower

The recent history of the Outlook Tower and the archival material at the Patrick Geddes Centre is not so well known. The following summary is based on documentary evidence in the files at the Patrick Geddes Centre for Planning Studies.

In the late 1950’s, the Tower, was becoming more and more difficult to keep and it was deteriorating structurally. In October 1955 Arthur, sold a large part of the Geddes Collection to Dr Thomas Lyon of the Royal Technical College in Glasgow after failing to get an offer from the University of Edinburgh. Dr Lyon gave the archives to the Department of Architecture then passed to the Department of Urban and Regional Planning, and then to the Library of Strathclyde University.

Meanwhile, the Outlook Tower had been disposed or sold by the Town and Gown Association to the Castlehill Properties Ltd- a Trust which included members of the Geddes family on the 12 of June 1949 for the sum of \(£1,500.00\) pounds plus \(1,500.00\) in 100 shares.

In 1959, Professor Robert Matthew and Percy Johnson Marshall arrived in Edinburgh to create the School of Architecture and develop a course in Civic Design at the University of Edinburgh.

By 1963, Professor Johnson-Marshall, great admirer of Geddes, was a student of Abrecrombie at Liverpool and of Jacqueline Tyrwhitt at the APRR. In Edinburgh, he had established contact with Arthur Geddes and the Castlehill Properties Trust. Together, they had the contents of Outlook Tower cleared and stored in University premises in order to start work on the necessary structural repairs of the building with the intention of restoring it to the Outlook Tower when repairs were completed. Some material appears to have been lost at this stage.

All the material, including some items of furniture, were then transferred to No 11 George Square. Later, in May 1963, the material was moved to No 2 Hope Park Square (a property bought by Patrick Geddes for the University) and then on the 12 November 1964 to No 58 George Square, the former flat of Mr Maxwell’s, then the Planning Research Unit of the new Department of Urban Design and Regional Planning. The entrance to the attic of No 58, containing the Geddes material was sealed (actually bricked up according to Mr Cook, the Departmental servitor) for security reasons for many years.

In 1967, Professor Percy Johnson-Marshall convinced the New College, then a separate institution from the University, to buy the Outlook Tower together with the adjacent buildings Nos 1 and 1A Ramsay Lane, the Old Ragged School of Dr Guthrie, for the purposes of developing a Patrick Geddes Centre for Planning Studies for the

University of Edinburgh. Castlehill Properties sold the Tower to the New College Trustees on 5 April 1967 for the sum of £8,000.00 pounds.

In June 7, 1972, New College Trustees sold the Outlook Tower to the University Court for the sum of £12,500.00. Unfortunately, after buying the Tower, the University could not meet the cost of structural repairs. The Tower was empty for many years. Visitor Centres Ltd acquired a lease on the Outlook Tower from the University in October 1977 including 1, 1 A Ramsay Lane, in order to make the Tower structurally sound and allow the Patrick Geddes Centre to start functioning in the upper two floors of the Tower. In exchange he was allowed to operate the Camera Obscura for visitors and general public. Subsequently, the lease was altered several times.

In 1975 the Department of Urban Design and Regional Planning moved to Minto House at 20 Chambers Street. The Geddes Collection and the APRR papers were moved also and they were stored at the back buildings of Minto House now a car park. It is possible that the Palin drawings for the decoration of McEwan Hall may have been added to the Geddes material at this stage.

The APRR, when it folded up, donated its library to Professor Percy Johnson-Marshall at the University of Edinburgh. The majority of the books went to the Main Library of the University in George Square. Some books were retained at the Architecture Library and the rest, together with the business papers and project work are at the Patrick Geddes Centre.

Finally, on the 5 July 1982, the University Court sold the Outlook Tower to Visitors Centres Ltd. of Carrbridge, Invernessshire with a proviso that the top floor should be leased back to the University to be used as a Patrick Geddes Centre for Planning Studies in lieu of the east most area of the basement previously set aside in the lease agreement to house the PGC Archives. The adjacent buildings were retained by the University, but leased to Mr Hayes until they were also sold to him in 1989. The Patrick Geddes Centre now occupies the fourth floor of the Outlook Tower known as the Edinburgh Room on a lease back free of rent from the Visitors Centres Ltd. The lease expires on the 20 July 1999.

The Patrick Geddes Centre for Planning Studies

Professor Johnson-Marshall retired in 1985. The Geddes material was moved back into the Outlook Tower on 5 March 1985, nineteen years after it was removed. The APRR papers were also moved to the Tower at this stage.

The Patrick Geddes Centre for Planning Studies was created by the Senatus Academicus of the University of Edinburgh 16 October 1985 "in order to develop Geddes's environmental thinking and to adapt his ideas to the 21st century", based on the archival material of the Geddes Collection held by Professor Johnson-Marshall who was then appointed Director of the Centre. First partial sorting of the material was made by Dr Jeremy Raemaekers in 1985. Professor Johnson-Marshall was succeeded by Mrs S G Leonard as Director of the Centre in 1989.

In 1987 the Department of Urban Design and Regional Planning was closed by the University, and at this stage, the material from the Planning Research Unit was added to the Geddes collection at the Outlook Tower.

Professor Percy Johnson-Marshall, Founder and First Director of the Centre, Mrs Sofia G Leonard, present Director of the Patrick Geddes Centre.
In 1987, following an inspection of the University’s Fire Officer who reported serious fire risks in the Outlook Tower, the Archives were temporarily moved, partly to the basement of the University Library and partly to the Department of Architecture at 20 Chambers Street until the necessary upgrading was completed in 1989 when the majority of the papers were returned to the Outlook Tower. Some, however, (largely the UDRP papers) were stored temporarily at the Royal Commission for Historic Monuments Record by kind permission. These have now been accommodated at the University Library Special Collections.

In 1988 Mr Richard Bigwood donated the Ambrose Rowse Papers to the Patrick Geddes Centre, Professor Rowse was director of the APRR. The papers include correspondence, business papers, books and annotated journals. Also, since 1987, the winning entries of the Saltire Patrick Geddes Memorial Awards have been deposited at the Patrick Geddes Centre at the Outlook Tower.

Professor Percy Johnson Marshall fell ill in 1988, and sadly, he died in July 1993. Mrs Sofia Leonard succeeded as Director. In spite of setbacks, the Patrick Geddes Centre, supported largely by grants, has been developing various on-going projects in parallel. They include: The Archival project, the Conservation project, the Exhibition project and the International Understanding project. The archival work on the Geddes papers is largely completed. Other catalogues of the Archival collection are still in progress.

Conservation

Thanks to a grant from the Wolfson Foundation and the British Library, awarded jointly to the Patrick Geddes Centre and the University Library, a programme of Conservation has been started on the Patrick Geddes Centre’s Collection in 1993 by the Special Collections Department of the University Library.

Exhibitions

Various exhibitions have been mounted recently by the Patrick Geddes Centre. In 1982, 50th anniversary of Geddes’s death in Montpellier, Professor Johnson-Marshall organised an exhibition at the Department of Urban Design and Regional Planning using original material of the Cities Exhibition extant in the Centre’s collection. Since its creation, the Patrick Geddes Centre, has also organised several exhibitions twice on the occasion of the Edinburgh Science Festival, 1989 and 1990, with selection of originals from the available material.

An Exhibition entitled: “Geddes The Green Pioneer” was produced by the Centre and designed by Ms Susan Nutgens. It was shown at the Mathew Gallery. This was later send to Salonica and Athens in 1989, under the auspices of the British Council and the Aristotle University of Thessaloniki.

A small Geddes's exhibition is now on public show at the 4th floor of the Outlook Tower. It was opened in a public ceremony by the Provost of the Group of Law and Social Sciences Dr D. Neil MacCormick and attended by a distinguished audience. It was reviewed by Dr Duncan MacMillan in the Scotsman.

International Symposia, Conferences and Congresses

Wider aims of the Centre has been to adapt Geddes's ideas and methods to the 21st century through Conferences International Symposia, an annual series of lectures in the Spring entitled: "Views from the Outlook Tower", etc. In the spirit of Geddes's pioneering interdisciplinary Edinburgh meetings, the Centre has organised two International Summer Meetings successfully carried out at the Outlook Tower in 1991-2.
Two major international congresses have been organised by the Centre the first in collaboration with the Centre for Human Ecology entitled: "Human Ecology, Sustainable Development and Education" chaired by Professor Percy Johnson-Marshall. The Second International Congress was organised by Mrs S. Leonard in collaboration with the International Society of City and Regional Planners (ISOCARP) in Glasgow in 1993 entitled: "City-Regions and Well-Being".

**Academic Links**

Over the years the Centre has attracted a number of high ranking scholars from around the world for research in Urban and Regional Planning, Architectural History and Architectural Conservation.

The Centre has forged Academic Links with Thessaloniki, Pakistan, India and with the Central University of Chile. Thus the work of Patrick Geddes is gradually becoming better known around the world and the Patrick Geddes Centre for Planning Studies has established an international recognition which it is hoped will be continued by successive generations.

General organisation of the Archives

The Archives hold material in four different collections according to origin and content reflecting the evolution of environmental thinking over the last 100 years.

Preliminary partial sorting of the Geddes material was made by Dr Jeremy Raemaekers during the period of August - November 1985.

Following advice from Dr John Hall of the Rare Books and Manuscripts Department of the University Library and with the approval of the Patrick Geddes Centre’s Steering Committee, a new layout of the catalogues and reference numbers was developed by Mrs Sofia G Leonard in 1986-88 in order to facilitate access and quick identification of the material for potential research scholars and to make them into a unified group of inter-related papers. Mr John Howard succeeded Dr Hall since 1988 as adviser to the Patrick Geddes Centre regarding the archival and conservation work and, at present, Mr Murray Simpson is in charge of the University's Special Collections.

Since 1988, Miss Caroline Fortescue and Mrs Katherine Michaelson from 1991 to 1995, have given invaluable voluntary contributions to further develop the research, classification and update of the various collections.

The adopted overall organisation of the catalogues at present is as follows:

A Catalogue of the Papers of Professor Sir Patrick Geddes from the Outlook Tower, Edinburgh.

A.1 The Cities and Town Planning Exhibition (maps, prints, watercolours)
A.2 The Survey of Edinburgh
A.3 Catalogue of the Scotland Room Prints and photographs
A.4 Planning work of Geddes in India including work by his son Arthur Geddes.
A.5 Geddes in Palestine
A.6 Middle East Prints and photographs
A.7 Original drawings for plaster work and murals for the interior decoration of the McEwan Hall designed by Mainwaring Palin.
A.8 Geddes Related Material and Pamphlets (partially sorted)

B Catalogue of the Papers of the Association for Planning and Regional Reconstruction (APRR). The APRR was strongly influenced by Geddes and it operated from London up to the 1950's. This collection, donated to Professor Percy Johnson-Marshall, contains the APRR's eclectic Library. Most of the books are now housed at the Main University Library, some are at the Architecture Library. Some books, business papers and project work are housed at the Patrick Geddes Centre.

(preliminary sorted)
B.1 Cities of Europe Exhibition. Modelled on Geddes’s Cities Exhibition at Hastings in 1946 using the new media of aero-photography.
B.2 Project work including Survey for a National Plan.
B.3 APRR publications
B.4 APRR teaching material.
B.5 APRR Library catalogues
B.6 Internal and Business papers of the APRR.

C Catalogue of the Papers from the Department of Urban Design and Regional Planning, and the Planning Research Unit of the University of Edinburgh. (1959-1985). (Largely unsorted)

C.1 Research methods: Threshold analysis, Optimisation Methods, etc.
C.2 Plans of Scotland (commissioned from the Scottish Office).
   Falkirk-Grangemouth
   Lothians
   Borders Study
   Central Scotland Region
   Glasgow, Gorbals.
   Cumbernauld
   South Side Study
C.3 Irish Angling Study (commissioned by the Board Failte Eirenean)
   Early use of the new computer technology in Planning.
C.4 Internal Business Papers of the UDRP
   Internal Business papers of PRU
C.7 Papers from the Architecture Research Unit

D Catalogue of the Papers from Professor Eric Anthony Ambrose Rowse, Director of APRR. Preliminary sort by Mr Kenneth Watts in 1993. (Donated by Mr Richard Bigwood).

E A collection of books on Planning and the Environment complementing the papers of the various collections. Preliminary sort by Mrs Grace Ellis in 1992-3.

F Papers from the Patrick Geddes Centre for Planning Studies (First 12 Years).
   Miscellaneous material, including some papers from Frank Mears and Associates. (Partially sorted).

The present publication is the first catalogue published by the Centre and it contains the most important part of the collection - Catalogue A- that is the papers directly relating to the life and work of Sir Patrick Geddes. It is hoped that Catalogues B and C, D, E and F will be published at a later date.

1.- THE CITIES AND TOWN PLANNING EXHIBITION

Introduction

"A preliminary Enquiry, a City Survey, is essential to adequate Town Extension Planning, and still more to City Improvement and Development upon any considerable scale. But those occupied with each and every department of such a survey, whether they are primarily interested in their city's past, its present or its opening and possible future, will soon find themselves in need of a fuller understanding of other cities, and next of city life in general. The processes of city life and growth, and those of its disease and poverty, its vice and crime, its deterioration and decay, will next force themselves upon their attention, and the adequate treatment of these evils will be seen to be delayed for lack of interpretations clearer than heretofore. In short, if our projects for improvement are not of merely make-shift or not merely utopian character, they must be based upon a sounder and deeper knowledge of conditions that we commonly possess or seek. Even in their beginnings, such survey will be found suggestive, since they point towards fuller social comprehension and and warmer civic impulse; and further towards the application of this comprehension, the guidance of this impulse towards useful and constructive purposes, point by point city by city.

The principle of the Exhibition is that of an Index - Museum. The arrangement may briefly be described (a) as opening with a graphic outline of the geographical and historical origins and development of civic life and thought; (b) as outlining the general place and usefulness of each of the main components of the community, their limitations and dangers also; and (c) as suggesting the possible contribution of each of the main occupations and professions, with their essential points of view, to the service of the city and Town Planning. Despite its unfamiliar aspects, its relative difficulty accordingly, such an Exhibition will be found of service to the active worker no less than to the studious enquirer into social questions. The one in his immediate tasks, the other in his survey of their largest bearings, may here find common ground towards the needed revivance of the City, the arousal of the citizen." From "Cities in Evolution". Patrick Geddes. Revised edition 1949. Williams and Norgate.

2. OUTLINE OF A SURVEY OF EDINBURGH

"...This exhibit is a developed example of the Methods of Survey of Cities (Scottish, English and others) in progress from some years at the Outlook Tower, as applied (a) to the teaching of Civics (b) to Collegiate developments and City improvements. Its significance in the present Exhibition is as affording evidence of the necessity, practicability, and fruitfulness of a clear understanding for each town and city (a) of its geographical situation (b) of its developing (and corresponding decline) at each important phase of its history from earliest to most recent times. Natural environment is thus never to be neglected without long-enduring penalties. Neither can historic phases can be considered to be as past and done with; heir heritage of good, their burden of evil, are each traceable in our complex present City: and each as a momentum, towards betterment, or towards deterioration respectively. As these lines of development and deterioration become disclosed by our survey, the task of practical civics grows correspondingly clear, both for municipal statemanship and for individual and associated effort. It does become evident that the survey should be adequately thorough, both as regards the needs of City Improvement and the possibilities of City Development. The suburban extensions and the industrial developments so fully illustrated in the Town Planning Schemes around us may thus be aided in many ways, and guarded against many risks of omission or error.

Extract from the Preliminary note by Patrick Geddes for the Catalogue for the "Cities and Town Planning Exhibition" in Dublin, 1911. page 35)

The A.2 Catalogue records the material extant, from the Survey of Edinburgh by Geddes, Mears and other associates, in the Archives of the Patrick Geddes Centre for Planning Studies. This work has been in progress from 1985-1998. First partial list by J. Raemaekers updated by E.C. Fortescue. Completed, revised and re-numbered by S. G Leonard. It is organised in sections according to the catalogue sequence in the "Cities and Town Planning Exhibition" in Dublin on May 24th-June 7th 1911. Underlined subtitltes as per Dublin catalogue. Other subtitles not underlined were inserted for guidance and clarity.
GENERAL AND GEOGRAPHICAL

A2. 2. GENERAL MAP OF EDINBURGH AND SUBURBS. Published 27th September, 1784. Alexander Kincaid (Surveyor) and John Bengo (engraver). Dedicated to John Grieve, Lord Provost. Framed reproduction. Location: on north west wall on top of large bookcase of Edinburgh Room.

A2. 3. CITY OF EDINBURGH AND ITS ENVIRONS. Robert Kirkwood’s Plan of 1817. Dedicated to Sir John Marjoribanks, late Lord Provost. Large map. Location: on north internal wall above Plan-Chest 2. 1.42 x 121.1 cms.

A2. 6. SCOTLAND. OROGRAPHICAL MAP. Reduced from Ordnance Survey by J.G.Bartholomew LLD, Cartographer to the King. Undated. Scale 1:1253,440. or 4 miles to 1 inch. 199 x 154 cms.; Large rolled map with bevelled slats at top and bottom, hanging cord at top. Survey of Edinburgh 1910. III (ii) page 4.

A2. 7. SCOTLAND. OROGRAPHICAL MAP. Copy of Above. Circles drawn in ink over map to indicate location of cities and towns in Scotland. Scale 1: 253440 or 4 miles to 1 inch. 236 x 202 cms. Top fixed to roller; spaced holes framed in brass rings on all margins. Survey of Edinburgh 1910. III (ii) page 4. Location: Edinburgh Room, Outlook Tower.

A2. 10. **PARTIAL MAP: SCOTLAND** from (top margin) Inverness (Glenelg Bay) to Angus (Berryhill, north of Montrose). John Bartholomew & Son., Geographical Institute, Duncan Street, Edinburgh. Scale: 1.126720, - half-inch to the mile. Signs of remounting; tear in bottom left-hand corner. Top fixed to roller; spaced holes, framed in brass rings, on all margins. 236 x 202 cms. Location: narrow passage behind fire-door.

A2. 11. **ICEFLOW.** Hand-drawn diagram (replacement of original Geological survey) showing west-flowing glaciers skirting Calton Hill, the Castle and Salisbury Crags. Plan-Chest 1, Drawer 3, Folder 2, Item 2iia.

Exhibits identifiably missing (or not replaced) from this section:
Three large paintings in oils of Edinburgh by Eric Robertson.
Geographical Survey of Edinburgh - Relief model in bronze, also plaster model (now part of it at Huntley House) before advent of railways.

**ORIGINS OF EDINBURGH**

A2. 12. **ARTHUR’S SEAT.** Remains of Ancient Settlement on Arthur’s Seat. Photograph and drawing (black and white), framed. Probably not in the original touring collection. 49 x 31.6 cms. Location: Plan-Chest 2, Drawer 3, Item 1

A2. 13. **PHOTOGRAPHS SHOWING PRIMITIVE CULTIVATON TERRACES,** Card with photographs taken from various points in the surrounding Old Town. Dublin Catalogue No 11 Page 36. Cardboard mount, 45.7 x 30.7 cms., on which are mounted five photographs (three showing Alexander Inglis’s monogram), all showing cultivation terraces, as follows:-
No 1. (10.9 x 8 cms.) - The Castle probably from the Vennel (?) or Lady Wynd(?) or (unlikely) from the upper part of Candlemaker Row. It shows back of Corn Exchange. No provenance.
No 2. (20 x 12.9cms.) - “Old Mint House, Candlemaker Row, Edinburgh. 497. - Inglis Monogram.”
No 3. (10.5 x 8 cms.) - The Castle from the foot of Candlemaker Row near its junction with the Cowgate.

No 4. (20 x 13.4 cms.) - “Edinburgh Castle from the Grassmarket. 317. - Inglis Monogram.” Obviously taken from an attic or roof; note the Black Bull Inn.

No. 5. (19.7 x 13.5 cms.) - Edinburgh Castle from S.E. 100. - Inglis Monogram. This shows Johnston Terrace and the foot of the Castle Steps leading to the Esplanade.

At the bottom R.H. corner of the card is a label “Cities Exhibition No 439”. Two pencilled numbers on the back - 112/13. See Edinburgh Survey, Page 4&5 112/13. Condition fairly good, but slightly soiled and the bottom R. H. corner is badly bent. Location: Plan-Chest 2, Drawer 1, Folder 8, Item 5.

A2. 14. REMAINS OF TERRACES mounted on sugar paper (said to be frequently used by Arthur Geddes) for exhibition at some point. Number on back, 112/119; Comprising two views of Edinburgh Castle (note terraces):

a EDINBURG Etching. 8.4 x 22.75 cms. No attribution; possibly removed when mounted. This view appears to have been taken from the site of Inverleith House (Royal Botanic Gardens).

b EDINBURG CASTLE. Etching. 8.4 x 13.75 cms. This may correspond to Item 11 in Dublin Catalogue. The spelling of "Edinburg" suggests a German provenance. Location: Plan-Chest 2, Drawer 1, Folder 3, Item 4 a and b.

A2. 17. EDINBURGH. BIRD’S-EYE VIEW SHOWING THE HILL FORT ASSOCIATED WITH SEA PORT (LEITH). Ink and water-colour drawing for the Survey of Edinburgh 1910. Signed by Frank Mears. 1910; Location: Edinburgh University Library, Special Collections. Published in Volume II.
A2. 18. PLASTER MODEL OF EDINBURGH DISTRICT BT PAUL RECLUS.
Part of the original is now at Huntly House (Municipal Museum). The remaining part is at the University Library Special Collections. At some point these two sections of the model should be re-united. A caption entitled Instructions for Viewing, together with another caption for another but similar model, have been filed under Section A8 (q.v.) as they were probably used at the Exhibition of 1948, if not earlier.

A2. 19. SECTION THROUGH CASTLE ROCK. 15 x 67.2 cms.- (inner measurement within frame). Location: Plan-Chest 2, Drawer 3, Item 2.
Exhibits identifiable missing from this section include:
Plan showing early lake basins.
Castle and Town of Tenda
Model of the Cross of Edinburgh.
The Banner of the City of Edinburgh.

EARLY MEDIEVAL (Feudal)
Twelfth and thirteenth centuries.

A2. 20. PLAN OF ELGIN “CLOSELY ANALOGOUS” CITY. Plan of early medieval city, with plan and views of Elgin, closely analogous. Survey of Edinburgh Catalogue, page 5: Number 114, (i) Plan of Early medieval City - a typical case; e.g. (ii) plan of Elgin, closely analogous. Dublin (Ui Breasail) Catalogue, Number 17. Cyclostyle copy in Plan chest 2, Drawer 1. Folder 1.Item 8a. Location: University Library Special Collections.

"Kings, suppressing local chiefs, take the strongest forts for their exclusive use, turning our all non-combatants." (Note from Dublin Catalogue page 37)

A2. 21. EDINBURGH. Diagrammatic Plan of the new Royal Burgh showing the probable extensions and boundaries prior to the grant of ecclesiastical settlements circa 1230. The central street or market-place of Edinburgh was laid out one hundred feet wide with low galleried houses on each side. Ink and water-colour drawing by Frank C Mears for the 1910 Survey of Edinburgh. Location: University Library, Special Collections. Published in Volume II

A2. 22. Perspective View of the CASTLE AND CITY OF EDINBURGH WITH THE TOWNS OF LEITH, BURNT-ISLAND & KINGHORN. Engraved for "The Complete English Traveller". This is an idealised. Note the 18th Century dress of the figures in the foreground, and the medieval appearance of the town which
shows only a small no southern suburb - The Pleasance, but not Blackfriars monastery, destroyed 16th century- and also the position and appearance of the Calton Hill, also Holyrood Palace. Print 20.5 x 33.5 cms. mounted on sugar paper (folded back to fit the print); 25.5 x 48.8 cms. Survey of Edinburgh number pencilled on back, 112/18. Location: Plan Chest 2. Drawer 2 Folder C. Item 1

**LATER MEDIEVAL (Burghal)**

Fouteenth and Fifteenth Centuries

"With the wars of independence the town began to take on a new character.
It was probably first walled in the time of edward the First, and from now onwards became more and more crowded". Dublin Catalogue, page 37

A2. 23. **HISTORIC MILE. "KEY OUTLINE". BIRD’S-EYE VIEW circa 1450. FROM SOUTH.** Ink and water-colour drawing by Frank C. Mears, 1910, showing showing the Castle and the spine of the High Street. Also medieval developments of Castle and Royal Burgh, with Holyrood Abbey and beginnings of aristocratic Burgh of Canongait. Survey of Edinburgh Catalogue number 112(ii), page 5. Dublin (Ui Breasail) catalogue numbers 9A, page 36 and catalogue no. 20, page 37. Location: University Library, Special Collections. Published in Volume II.

A2. 24. **BIRD’S-EYE VIEW ABOUT 1450, LOOKING WEST.** Unique ink and water-colour drawing by Frank C. Mears, 1910, showing medieval developments of Castle and Royal Burgh, with Holyrood Abbey and beginnings of aristocratic Burgh of Canongait. Dublin Catalogue No. 20. It also shows the Grassmarket and the "Nor Loch" and the city walls. Drawn by Frank Mears. 1910. Several duplicates (photographic copies) have been made for the exhibition" Geddes the green Pioneer" (1989). One hangs on fire-door). Location: University Library, Special Collections. Published in Volume II

"... To this is directly traceable the long overcrowding and underhousing of Edinburgh with high rents and land values" Dublin Catalogue Page 38

A2. 25. **FACSIMILE OF A PLAN OF THE SIEGE OF THE CASTLE OF EDINBURGH, MAY, 1573**. Original inscribed “R. H. Nimmos, Lubez (?) Edinburgh”. Undated, Shows line of Flodden Wall, Burgh of Canongate and their extensions, development of Nor’ Loch as partial moat, also growth of ecclesiastical
foundations outside the walls. Note also extension of Flodden Wall after 1513, also land acquired outside Flodden Wall in 1618. 31 x 42.3 cms. inside frame. Location: This plan hangs on the south-facing wall on the right of the west window of the Edinburgh Room, Outlook Tower..

A2. 27. EDINBURGH FROM ST CUTHBERT’S TO ST GILES. Duplicate Copy of from a very rare view by Hollar, 1670. 17.2 x 21.5 cms. No references traced. May have been cut from a magazine. Location: Plan-Chest 2, Drawer 2, Folder C, Item 9.

CASTLE... BURGH, WITH GREAT CHURCH... ABBEY AND BEGINNINGS OF ABBEY TOWN.

"These views, though in some cases of buildings not strictly medieval, may be taken generally representing the Appearance of the town before the reformation." Dublin Catalogue Page 38.

(This is an extraordinary picture because the background shows the view looking east (Firth of Forth and Inchkeith), whereas the elevation of the Castle which is shown is from the east looking west. Item 4a(ii) (below) shows an identical view of the Castle on a smaller scale, but with the background in reverse - Inchkeith has become Arthur's Seat (?) or the Calton Hill(?). (See note on back of Item 4). Location: Plan-Chest 2, Drawer 1, Folder 3, Item 11.

A2. 35. **TWO VIEWS OF EDINBURGH CASTLE** Card with Photographs probably dating from c.1880. Views are mounted on card with cut-out card frames. Soiled, and prints are badly spotted. Card, 24.8 x 34.7 cms. (Information from J. Roe, photographer).

View 1: **Edinburgh Castle from the West.** 480; Inglis Monogram. 13 cms. x 20.5 cms.

View 2: **Edinburgh Castle from the S.W.** 492; Inglis Monogram. 13.3 x 20.4 cms. Location: Plan-Chest 2, Drawer 2, Folder C, Item 5.

But this print shows no sign of any figures. Framed for 1982 Exhibition. The memorial is to Elizabeth Paton, wife of Johannes Cuningham ab Enterkin (sic), (Dumfriesshire), who died 10 February 1676. Many descendants are commemorated on this memorial. 27 x 37.4 cms. Location: Plan-Chest 2, Drawer 4, Item 4.

A2. 58. TWO ENGRAVINGS ON ONE MOUNT

6(i) **ALEXANDER HENDERSON.** 1583 - 1646, one of the principal members of the committee which drew up the National Covenant (1638) - see item 1 above - which marks the beginning of the democratic form of government of the Presbyterian Church of Scotland. (See *Alexander Henderson, Biography*, Orr; pub. Hodder & Stoughton, 1919, Pp. 111 - 127). 6(ii) **ARCHIBALD CAMPBELL, MARQUIS OF ARGYLE.** (1598-1661). "From the original at Inveraray." Statesman and adviser to King Charles I. Privy Councillor 1626 - 1637. He supported the Covenanters in their opposition to the King’s policies regarding the National Church, it is thought for political rather religious reasons. Later he showed support for Cromwell until the execution of the King, but failed to give full support to Charles II. After the Restoration he was executed in Edinburgh in 1661. Engraved by S. Freeman; Blackie & son, Glasgow, Edinburgh & London. 16.3 x 9.9 cms. Location: Plan-Chest 2, Drawer 2, Folder F, Items 6 (i) and 6(ii).

A2. 60. **EDINBURGH. “THE PLAN OF EDINBURGH EXACTLY DONE FROM THE ORIGINAL OF THE FAMOUS DE WIT. 1647.”** (Note gardens of late Renaissance fashion.) Two copies by different engravers:-

(i) “Printed and sold by John Bowles at the Black Horse in Cornhill. 58.” Mounted recently mounted on kappa board (for 1989 Exhibition). 54 x 115.8 cms. including mount. Location: Plan Chest 3, Drawer 5.

(ii) “Printed and sold by L. Smith at his shop in the West End of Exeter Change in the Strand.” 36 x 91.5 cms. within wooden frame. Smaller copy of (i). Framed Print. Location: on west wall opposite of entrance door of Edinburgh Room.

A2. 61. **DRAWINGS OF OLD HOUSES OF EDINBURGH by Bruce Home (1)**

Set of drawings by Bruce J. Home (1870 - 1900). Published by the Old Edinburgh Club. Plates and letterpress of *Old Houses in Edinburgh*, Bruce G. Home 1907. 54 Plates and Letterpress, all 12”x 9 1/2” or 9 1/2”x12”, stuck in rows of seven, eight or nine on grey sugar paper 30”x71” with detailed written descriptions under each drawing. Bruce Home was for a time secretary at the Outlook Tower, and Miss Home also worked there. (See Edinburgh Central Public Library Y.D.A. 1294, and the City Art Collection Catalogue, also the *Book of the Old Edinburgh Club*, I.I.)

**Sheet A:** Blair's Close, Somerville's Land, Milne's Court, Bowhead, Lady Stair's House.

**Sheet B:** Bakehouse Close, buildings between Huntly and Acheson House.

**Sheet C:** Gladstone's Land, Brodie's Close, Byrne's Close, Advocate's Close, Kinloch's Close.

Other copies of Bruce Home's Drawings not taken to Library, as follows:

**a MILNE’S COURT, EDINBURGH,** 1690, from a drawing by Bruce J. Home.(1830-1912). Print (cut from unidentified publication and mounted on sugar

b PLAINSTONE (PLAINSTANES) CLOSE. 1892. (Inscription in bottom L.H. corner.) (The name “Plainstanes Close” appears to refer to three closes - one at 78 Grassmarket, one off the Cowgate, and another at 232 Canongate.) Part of collection of prints, Old Houses in Edinburgh, No 23. by Bruce J. Home. Mounted on sugar paper, 38 x 28.8 cms. Print, 29 x 21.1 cms. Location: Plan-Chest 2, Drawer 1, Folder 7, Item 7a.

c BAKEHOUSE CLOSE. Close between Huntley House and Acheson House. From a drawing by Bruce Home. Mounted on sugar paper 34.7x29.8 cm Location: Plan chest 2 Drawer 1, Folder 7, Items 3

e BROWN’S CLOSE although noted as "Court", Canongate. Mounted on sugar paper 38.2x 27.1 cm 30.8x 20.5 including border. Location: Plan Chest 2 Drawer 1 Folder 7, Item

f WHITEHORSE CLOSE. ("1870" inscribed). Left bottom corner has "D.J. H" inscribed. Mounted on sugar paper. Mount 24.8x51cm. Location: Plan Chest 2 Drawer 7, Folder 7, Item 8b.

A2. 63 BACK OF BAKEHOUSE CLOSE

a BACK OF HUNTLY HOUSE, back of building, showing a slater’s yard. Quotation from Bruce Home’s original album of prints of old houses, (courtesy of the Edinburgh Room, Central Library): “- one of two inner courtyards which, in accordance with Edinburgh usage, may be termed Back of Bakehouse Close and to which access is gained on the west side of the Close. The Huntly House which presents to the Canongate a heavily timbered front, is here shown from behind and is entirely built of stone.” Mounted on sugar paper along with Item 9b below. 1 cm. white border all round. 30 x 22.5 cms. Dimensions of inexpertly cut double-mount: 34.5 x 52 cms. Location: Plan-Chest 2, Drawer 1, Folder 7, Item 9a.

b BACK OF BAKEHOUSE CLOSE. See above. - This “shows the Huntly House from behind the present drawing and illustrates the lower portion of the same enclosure. The windows, as is confirmed by the next print* showing a long bank-yard, face west; then one facing south to the brewery.” Note also the wall on the
extreme left which divides this back-court into two. This building must have been
demolished like others during one of the early improvement schemes; the artist had
undertaken the task of recording the appearance of interesting buildings in the Old
Town. Note that Huntly House and some others have survived. Details are as noted
for Item 9a, except that dimensions are 29.5 x 22.5 cms. Location as above: Plan-
chest 2, Drawer 1, Folder 7, Item 9B.
* The “next print “ in the sequence of the Bruce Home Album is Brown’s Close,
Canongate.

EDINBURGH AS A COLLEGIATE CITY.

"While the three other Universities of Scotland are medieval foundations, Edinburgh University dates from 1582 - nearly a generation after Reformation. Here no collegiate residences were established, and pious founders - Heriot and others, to Fettes - preferred to erect schools, often palatial. For these reasons the first hostels or Halls of residence in Edinburgh date only from 1887 and arouse in due continuation of the tradition of student independence and responsibility, as self governing groups without a warden"

"This scheme of University Halls (as Geddes called them) is not one of collegiate development independently of the existing city and by replacement of its buildings as in other collegiate systems. On the contrary, it seeks (on the grounds alike economic and historical) to conserve and incorporate existing buildings, and is at once conservative as regards Town and constructive as regards Gown. It carries on the preservation and repair of ancient buildings (See Riddles Cout etc.) and the incorporation and adaptation of historic houses (Allan Ramsay's Lodge, Ramsay garden etc.) " Dublin catalogue page 45.

A2. 139. OUTLOOK TOWER, Acquired in 1892 by Patrick Geddes, as Centre for post graduate studies, experimental education, civic improvement, etc.

Two photographs on card, (31 x 13.9 cms.)
4(i). TOP: OUTLOOK TOWER, CANNONBALL HOUSE, CASTLEHILL, ST JOHN'S TOLBOOTH CHURCH. (14.3 x 11.2 cms)
4(ii). BOTTOM: SAME VIEW, approximately but excluding Cannonball House and showing SOUTH SIDE OF CASTLEHILL, and RESERVOIR on north side. PATRICK GEDDES stands with a group of children on the left. (14 x 11.2 cms.) Note that the war memorial has moved since then to closer to the castle.
Location; Plan-Chest 2, Drawer 2, Folder D, Item 4.

A2. 140. INTERIOR OF EDINBURGH ROOM AT THE OUTLOOK TOWER.
The Edinburgh room now accommodates the Patrick Geddes Centre for Planning Studies, of the University of Edinburgh. At the time of Geddes it housed all exhibits pertaining to the city of Edinburgh. See Volume II, X, 1.
The Outlook Tower was acquired by Geddes in 1892. He converted it into a Centre for postgraduate studies, experimental education and civic improvement. In this picture Patrick Geddes stands with a group of children on the left.

Note that the War memorial has been moved since then to closer to the Castle.
A2. 141. **EDINBURGH ROOM, OUTLOOK TOWER MURAL.** Photograph by A.G. Ingram Ltd., Photographers, 5 West Maitland Street, Edinburgh. Phone: Fountainbridge 7725. Depicting a mural, (possibly by Cadenhead), on the west wall (unfortunately now covered). There is no key to the pictures but they are identifiable: "The Castle, Half Moon Battery, National War Memorial, St Margaret's Chapel, Governor's House (Officers' Mess); then the Lawnmarket, Ramsay Garden, National Gallery, Scott Monument etc., etc." The telephone number and its form may give some indication of the date. 30.5 x 38 cms. Location: Plan-Chest 2, Drawer 2, Folder D, Item 6.

A2. 143. **VIEW NORTH FROM EDINBURGH CASTLE.** Coloured copy of an original drawing by Frank Mears, possibly in former “Dean of Guild’s Office” - now City Archives, Edinburgh District Council. 27.4 x 62.3 cms. Location; Plan-Chest 2, Drawer 2, Folder C, Item 11.

A2. 144. **Two photographs,** faded and badly damaged, by Francis Caird Inglis, (Castlehill Studio, 1843 - 1945) on badly damaged mount, 38.4 x 30.6 cms..

A2. 145. **ALLAN RAMSAY, FATHER.**

Two engravings:

(i) **ALLAN RAMSAY (the elder),** 1684 - 1758. The poet in his youth; he built the original Ramsay Lodge (nicknamed “The Goosiepie”) incorporated into Patrick Geddes’s Ramsay Garden, 1892 - 1894. Engraving, “J. Smibert P(inxit), Geo. Vertue S(culpit”). Etching, 38.5 x 28.3 cms., within Plate-
(ii) **ALLAN RAMSAY (the elder).** The poet aged 39, painted by Aikman in 1723, *(Dictionary of National Biography)*. “Allan Ramsay - William Aikman (pinxit), William Howison (sculpit). Blackie & Son, Glasgow, Edinburgh & London.” The picture has a rounded top and has obviously been removed from a book; see also Folder F, Items 3(ii) and 6(i). Number on Back : A3; Raemakers’ number, G4 - 7.24.2 x 15.6 cms. Plan-Chest 2, Drawer 2, Folder N, Item 6(ii).

(Note that both Ramsay Lodge and part of Ramsay Garden (the cottages) were bought by Patrick Geddes in 1892. With the help of Henbest Capper (1892) and Sydney Mitchell (1893) Geddes created the magnificent complex of the Ramsay Gardens for use as student and lectures's residences. It accommodated a large flat for himself and his family. The Common Room in Ramsay Lodge contains murals by John Duncan, c.1897. It is now used entirely as residential flats but its appearance has not been altered since Geddes'time.

Bartholomew grandson of J.G.Bartholomew, Cartographer to the King and
collaborator of Patrick Geddes.

"....So far our Survey of Edinburgh, ancient, medieval, and
modern, actual and projected; a wealth of detail, and this particularly
organised, yet obviously far from complete; in short, at best a suggestive
beginning, not the complete Civic Museum which Edinburgh should now
prepare to add to its many educational resources, its public
initiatives".........

".........Yet as each phase of our Survey has come and gone, so in turn this
presentment of it. All Surveys need perpetual renewal; and our final
exhibit hidden behind this is thus: -
The Outlook Tower - here reduced to its simplest expression in principle:
that in which it may be adapted by anyone to the problems and the tasks
presented by his own environment, his region and his City" ........Patrick
Geddes. Dublin catalogue Page 48

In most folders, the scenes in each area are arranged so that the most northerly places come first, then those in closest proximity to the northern scenes, firstly on the eastern side, then on the west; and then the scenes to the south, but with efforts always made to put together in the file pictures of places which are in close proximity to each other.

In some cases, however, it has been found convenient to begin with the principal town (e.g. Perth), but the sequence continues -north, east, west, south. [N.B. Edinburgh is not included in Lothian, because there is a separate section (under Cities Exhibition 1910) for Edinburgh.]
Folder 1: THE FAR NORTH AND INVERNESS-SHIRE
May 1991

A.3.1.1 “ST. MAGNUS CATHEDRAL, KIRKWALL, ORKNEY (considerably idealised, as the town which surrounds it is not shown). Drawn by W. Purser, from a sketch by the Marchioness of Stafford. Engraved by E. Findon. Published Feb. 1833 by Chapman and Hall, 68 Strand, London.”

Engraving: Obviously a plate extracted from a book. 16 x 2cms (8.8 x 12 ins.) Good condition but soiled.

A.3.1.2 “THE TOWN OF DINGWALL. Drawn on the spot by I. Clark. Published by Smith and Elder, Fenchurch Street, London. 1824.”

Aquatint: 51.6 x 66 cm. Fairly good condition -torn edge, soiled. See also Folder 2 Item 1; Folder 6 Items 1 and 6; Folder 9 Items 2 and 21. No.1 of set of 6. Price £2\2\0 on back -for whole set?

Engraving: 31.5 x 36 cm. Good condition, soiled. (Price 2/- on back).

Etching: 26 x 36 cm. No border. Good condition, soiled.

A.3.1.5 “VIEW OF ELGIN, ELGIN CATHEDRAL, INVERNESS. Engraving showing three scenes.”

Engraving showing three scenes: Part of a set by Pierre van der Aa -not noted on sheet, but shown in Folder 3 item.

Duplicate. Original in Folder 12. See original for details.

Large Aquatint: 56.25 x 75 x 75 cm. Stored flat on bottom of drawer - too big for folder. Poor condition - badly torn border with two tears extending into print. Water damage - soiled border. Has been folded at some time.

See also Folder 1, Item 2; Folder 6, Items 1 and 6; Folder 4, 2 and 21. No. 2 of set of 6.

A.3.2.2 OLD ABERDEEN. No identification, but clearly Old Aberdeen showing (L to R): Powis Tower (?), St. Machar’s Cathedral, The Chanony, King’s College (University of Aberdeen).

Hand coloured Aquatint: 44 x 65.25 cm. 1 cm. border trimmed off at bottom. Fairly good condition. Two slight tears. Soiled back.

Patrick Geddes, without any exaggeration, could be called 'The Renaissance Man of the Twentieth Century'. Starting from an excellent Scottish schooling, he moved on to University level studies in Biology in London and in France, widening his interests to include serious study of Positivism, Sociology, Geography, and Civics. His teaching career began in the University of Dundee, with responsibility for Botany & Marine Biology. He moved on to Adult Education in Edinburgh, with the Summer Meetings, holiday courses in these last topics, at first for young teachers at Granton & then for a wider public in the Outlook Tower on Castlehill. Here he created over the years an unique resource for multi-disciplinary study, which then became a centre for City Survey. All his teaching followed what he had learnt with T.H. Huxley as a Biologist, to unite academic study with "hands-on" research. The City Survey which was published in 1910 became a valuable tool for the study of Civics, Town planning & Sociological research. Geddes' amazing energy enabled him to combine teaching, publishing, organising conservation & town planning studies, & to travel widely with the large & influential Cities Exhibition, his next big scheme.

In 1914 he was asked by Lord Pentland a friend and patron, who had by now become the Governor of the Madras Presidency, to take the Cities Exhibition to tour in India. The overall aim was for Geddes to develop the study and practice of city survey and to advise on the vast problems of social and civic improvement then becoming all too apparent. In the event he worked in India for nine years and after an initial study of thirteen towns in the Madras Presidency, completed a further 47 surveys. The Exhibition was packed and shipped in the Clan Grant and Geddes and his eldest son Alasdair set off for India, unfortunately on the eve of the First World War. The Clan Grant carrying the Exhibition was attacked and sunk, and amazingly, the whole Exhibition was replaced as far as possible, in two months, by Geddes' good friends and colleagues in Britain. The replacement Exhibition then toured India, being finally installed at the University of Bombay, where Geddes was appointed Professor of Civics and Sociology. He worked there from 1919 until 1923 when his health broke down and he retired to France.

His work in India ran counter to the received European and British ideas and schemes for Town Planning which mostly ignored the indigenous peoples' traditional building methods, customs and lifestyles. Indian cities had become grossly overcrowded, insanitary and congested and presented horrific problems to the authorities. Official solutions on European lines seemed highly inappropriate to Geddes, who was in an unique position to demonstrate his own suggestions for solutions while training a large number of Indians to carry on his ideas & methods. Much remains of his Planning work, (carried out at more than 50 major sites over the whole continent) in the form of maps, plans & Reports of which many are in collections in Scotland. We owe their preservation to his son Arthur Geddes who worked with him on many projects.

PATRICK GEDDES IN PALESTINE

A. 5. PALESTINE

From childhood, Patrick Geddes had been deeply interested in Palestine, (the Land of the Book). The city of Jerusalem had appeared in the Cities and Town Planning Exhibition in 1911 as an important component of its message. He had had contact with a prominent Zionist, Israel Zangwill, since the 1890s, but it was not until 1919 that the the area and its future became important on an international agenda. A friend and colleague of Zangwill, Dr. M.D. Eder, was involved between 1918 and 1919, with the Zionist Commission, specifically on its project for the Hebrew University of Jerusalem. Geddes had sent him a copy of the Indore Report (including the plans for the University projected there), and Dr. Eder had replied suggesting that Geddes carried out a survey of Jerusalem, Past Present, and Possible. (See Meller, p. 264 and 265.) Between 1918 and 1922 another friend and colleague of Geddes, C. R. Ashbee was also involved.

It is to be supposed that the material on Palestine in the Outlook Tower archive was added after 1919, though in the case of 1. there is no way of knowing who brought it in. The photograph, the aerial view of Haifa, is dated 1918.

A.6. 2 PHOTOGRAPHS OF FOURTEEN ASSYRIAN FRIEZES

Composite item consisting of 14 MOUNTED PHOTOGRAPHS of a frieze in (an) ancient Assyrian building(s). These are all mounted on cards and are stamped "A. Giraudon, editeur, 15 R.(rue) Bonaparte, Paris". The sculptures are now in the British Museum. The sequence of the numbers noted in 1985/86 at The Patrick Geddes Centre is unclear, and has been altered in this current list by a later compiler. N.B. All measurements refer to card mounts. Location Plan-Chest 1. Drawer 2. Folder 2. Item 2 -

The compilers are indebted to Professor R. Hillenbrand, Department of Fine Art, University of Edinburgh, for advice on the subject-matter, and to Dr Stephanie Dalley, of The Oriental Institute, Oxford, who has provided a detailed analysis of the photographs beginning: “The group is restricted to Ashurnasirpal II and Ashurbanipal, and does not include any of the sculptures of Sennacherib. There are two hundred years between two kings; dates are approximate. The excavators of these pieces were all British. There are no photos of sculptures from French excavators at Khorsabad. The story is told by M.T. Larsen, The Conquest of Assyria. (Routledge 1997).”

A.6.2 (ii) **BIRD-HEADED FIGURES** - in a somewhat similar position to those in Item i, but standing and holding bunches of grapes, and tending the sacred tree. One-line cuneiform inscription above. History:- ”Stone Sculpture of Ashurnasirpal II from his palace at Nimrod, ancient Kalhu, c. 865 B.C.. Now in the British Museum. A register of his standard display inscription has been cut off below the scene.” Mount: 22 x 27.6 cm. Location: Plan-Chest 1, Drawer 2, Folder 2, Item 2.

A.6.2 (iii) Frieze showing, on left, **A CIRCULAR ARMY CAMP** in which people are seen performing various household tasks; in centre, horses are being groomed and watered; on right, four men are apparently seeking admittance; a strange lion-headed figure is being excluded. Pavilion with animal finials. History:-”Stone sculpture for lining internal walls. From the Palace of Ashurnasirpal II at Nimrod, ancient Kalhu, c.865 B.C.. Now in the British Museum.Scene shows a military camp. Mount: 21.3 x 27.6 cm..Plan-Chest 1, Drawer 2, Folder 2, Item 3.

A.6.2 (iv) Frieze showing according to caption: **“FUGITIVES SWIMMING TO A FORTRESS”** on inflated skins. History:-” Stone Sculpture of Ashurbanipal II from his North-west palace at Nimrod. The band of standard display inscription has been cut off at the bottom, c.865 B.C. Now in the British Museum.” Slight discolouration in corner, water damage? Title as noted. Raemakers’ no. G9-16-14. Mount: 21.3 x 31 cm.. Plan-Chest 1, Drawer 2, Folder 2. Item 4.

Note: comment following quotation in introduction above: -”Approximately two hundred years between the two kings” and so, at least as regards the history, items 1 to 4 date from the 9th century B.C.; items 5 to 14 from the 7th, B.C..

A.6.2 (v) Frieze showing **“KING HUNTING LION”** according to the caption. The hunter rides in a chariot and is shooting an arrow. History:-”Stone sculpture of Ashurbanipal from the North Palace at Nineveh c. 645 B.C., now in the British Museum.” Title as noted. Raemakers’ no. G9-16-3. Mount: 21.25 x 27.5 cm.. A.8. GEDDES RELATED MATERIAL

The contents of Drawer 3 of Plan-Chest 1 consist of various posters, captions, headings, notices and comments at some time displayed in various exhibitions. It is not known exactly when these were used, and there has been no deliberate attempt to arrange them in chronological order but they mostly reflect the period from 1917 until after the Second World War. This is followed by material associated with Geddes's second son, Dr Arthur Geddes: then by two original drawings and finally by duplicates of development plans for Ramsay Garden (sic) commissioned by Geddes from 1892 onwards.

A8. GEDDES RELATED MATERIAL AT THE OUTLOOK TOWER.

FOLDER 1

A8. 1. TWO CARDS with data on exhibits in an early exhibition:-
(a). CAPTION for PLASTER MODEL OF EDINBURGH DISTRICT BY PAUL RECLUS. Instructions for viewing. See also photograph in the Patrick Geddes Collection of Edinburgh Photographs, Volume III, Section W. Card measurement: 21.6 x 20.75 cms. = 8.1/2 x 8.1/10 inches. See also Survey of Edinburgh (1910) Page 4, no. 111 (possibly), and Dublin Catalogue (1911) Page 36, no.7.

(b) THE BURGHS OF EDINBURGH AND THE CANONGATE. Instructions for viewing plaster model. Maker unidentified but probably Paul Reclus. 36.2 x 36 cms. = 14.2 x 14 inches. See also:- Survey of Edinburgh (1910) Page 5, no.112 (ii), and Dublin Catalogue (1911) Page 36, no. 9A.
Location: Plan-Chest 1, Drawer 3, Folder 1, Items 1(a) and 1(b).

(c). ORIGINAL POSTER OF "THE MASQUE OF LEARNING"
(Probably 1911 in London.) Inscriptions: “JAs. TURNER & Co., Lothian Press, Edinburgh. 11th - 15th March, (Year not visible). Seats 10/- to 2/- (7). AT THE UNIVERSITY of LONDON.” It appears that the poster was used on a second
occasion, since part of the original caption has been pasted over:- “The Edinburgh Masquers, Outlook Tower: The Masque of Ancient Learning, Masque of Medieval and Modern Learning. Given in aid of the Outlook Tower Archives.” On the right-hand side of the drawing is a monogram, “C.S.” 27.7 x 45.0 cms. Plan-Chest 1, Drawer 3, Folder 1c, Item 1c.

FOLDER 2 (PACKAGE)

A. 8.2.1 in fact a PACKAGE (secured with string) containing:

9 ORIGINAL POSTERS: Typed Data: based on material used in the “Great Town Planning Exhibition; Civic Survey of Edinburgh, 1910”, (see Boardman, Pp. 216-218), but probably the residue of an exhibit in an Exhibition post 1945, or late 1930s. Plan-Chest 1, Drawer 3 Assumed Folder 2:-

Item i:- The Shaping of Arthur’s Seat,
Item ii:- The Ice Flow,
Item iii:- Climate and Weather

A. 8 6. 1. TWO SKETCHES by ADRIAN BARRINGTON for THE OLYMPUS LECTURE, February, 1914. Identified by Mrs K. Michaelson as follows:—

"The Olympus Lectures - by a visitor, Rachael Annand Taylor at the Little Theatre, 15 February, 1914. Adrian Barrington’s drawings:-

i) Noble and living Olympus with Gods in their circle
ii) The respective temples of the Gods on the hill
iii) closed and fixed Olympus on the hilltop
iv) The degenerate city below
v) The various degraded types of Humankind
vi) The city renewed below (which he did not draw.)

This needed to be projected before the lecture. RAT (sic) was very vague and spaced, and probably Barrington also (?)."

Dr Raemakers’ note:- “Two pencil sketches (originals) of a pedestal with figures in modern dress representing emotions, occupations, some in classical symbolism (E.G. Ares and Hermes). I think this design is referred to somewhere in Boardman, 1978.”

Raemakers’ Number G - 14 - 6. (Most material from Mrs K. Michaelson.)
