EXPLANATORY NOTE

(This Note is not part of the Regulations.)

These Regulations amend the Classification, Packaging and Labelling of Dangerous Substances Regulations 1984 ("the principal Regulations") to give effect with respect to Great Britain to the provisions of—

This is achieved by a revision of the approved list described in Regulation 4 of the principal Regulations. This revision provides additional entries relating to substances which are dangerous for supply within the meaning of the principal Regulations and amends other such entries. It also provides conventional toxicity values for use in classifying pesticides in accordance with Schedule 3 to the principal Regulations.

In addition the revision incorporates in the approved list information approved by the Health and Safety Commission for the proposed Road Traffic (Carriage by Road in Packages etc.) Regulations.

The amendments to the principal Regulations required to give effect to the revision are set out in the Schedule to these regulations and Regulation 3 contains a transitional provision which allows substances which are labelled in accordance with the approved list in its unrevised form to be supplied until 9th June 1987 and additional provision is made under certain circumstances in relation to small packages until 8th December 1987.

Copies of the approved list which was published by the Health and Safety Commission on 10th October 1986 and is entitled—

"Revision No. 1 to the Approved List (Information Approved for the Classification, Packaging and Labelling of Dangerous Substances) incorporating information approved for the carriage by road of dangerous substances in packages etc." (ISBN 0 11 883888 1)
