Visual Timetable example:

Evening routine

This is an example of a visual timetable. It can be used as a visual strip to explain the sequence of events. You can also point to the current activity and prompt your child what the next one will be. The individual symbols can be attached to a laminated strip using Velcro and then can be taken off when each task is finished. This will help communicate clearly to a child what is happening.

The symbols used in this visual timetable are from The Picture Communication Symbols ©1981–2010 by Mayer-Johnson LLC. All rights reserved worldwide. Used with permission.
