The lists below cover material published in the period 1.5.75 to 30.4.76, on Scottish politics, government, and policy issues (broadly interpreted). It is incomplete, not by intention but through lack of time: the largest gaps are in memoranda on the White Paper, Our Changing Democracy (of which at least a gross have been submitted, though few published), and in local government publications. Since the bibliography is envisaged as a regular feature of the Yearbook, any omissions will be included in next year's listing.

The listing is divided into two parts, the first covering books, pamphlets, articles, memoranda, and longer newspaper features; the second includes shorter articles and newspaper features. There is a break in the numbering of the two sections (II begins at 200), to allow for easier identification of longer pieces in the Index, which is at the end of the lists.

Because of their frequent appearance, certain periodical and newspaper titles have been reduced to initials, thus:
