APPENDIX 1

RECENT PUBLICATIONS IN SCOTTISH GOVERNMENT AND POLITICS

C. H. ALLEN,
Department of Politics, University of Edinburgh

The lists below cover material omitted from the list in the first Yearbook, and material published since then, in the period 1.5.76 to 31.5.77. While coverage is less incomplete than in the previous list, there are bound to be unintended gaps and it would be very helpful if readers would notify me of missing items, which can be included in next year's listings.

As before, the items are divided into two lists, the first covering books, pamphlets, long articles, memoranda and sets of newspaper features; and the second covering short articles and newspaper features. There is a break in the numbering, with the second part beginning at 500, to allow for easier identification of longer pieces in the Index at the end of the lists.

Certain periodicals have been abbreviated, thus:
